Policy on External Professional Activities of Faculty and Other Professional Staff

In accordance with the University of North Carolina Board of Governor’s Policy on Conflict of Interest and Commitment [300.2.2], all Faculty and EPA non-Faculty employees of the University may participate in activities for compensation outside of their University duties. External professional activities for pay (EPAP) means any activity that

1. is not included within one’s University employment responsibilities;
2. is performed for any entity, public or private, other than the University employer;
3. is undertaken for compensation; and
4. is based upon the professional knowledge, experience and abilities of the EPA employee.

Activities for pay not involving such professional knowledge, experience and abilities are not subject to the advance disclosure and approval requirements of Section III of the Board of Governors’ Policy, although they are subject to the basic requirement that outside activities of any type must not result in the neglect of primary University duties, creation of a Conflict of Interest, involve inappropriate uses of the University name or resources, or include claims of University responsibility for the activity.

All Faculty and EPA non-Faculty employees of the University are required to receive approval in advance of engaging in external professional activities for pay (except for contract employees performing external professional activities for pay entirely outside the months of their University contract employment).

A Faculty or EPA non-Faculty employee is required to file a “Notice of Intent to Engage in EPAP” request through the online system at least ten (10) days before engaging in the external activity. At the University of North Carolina at Chapel Hill, External Professional Activities for Pay (EPAP) requests should be submitted on-line: https://apps.research.unc.edu/air
